## EXPERT TESTIMONY PLENTY and TO ORDER

### MULHOLLAND LEADS PACK

#### Way Grows Brighter for Ranchers and Final Result Will Bring Prosperity to Valley.

During the past week the city has continued putting in its expert testimony trying to establish the character of the formation of the valley, and the capacity of its storage for run-off throughout the year.

Mr. Mulholland has been on the stand the most of the time and has made an excellent witness for the city, just as good a one as he has been and would have been against her if it had properly touched his interests to be on the other side. He is one of those who has a conviction that he knows certain things and is very positive in his assertions of them. His association, in the various water suits in which the city has been involved, with eminent engineers, geologists and the like has supplied him with a vocabulary of big words and technical phrases that he never misses an opportunity to give forth with apparent great self-satisfaction. He found no difficulty in reconciling the differences between his present testimony and that given at former trials. He was positive that a few wells were a perfect test of what he wanted to prove but no test at all of anything that ran counter to his views. This much he did admit, that there were no underground channels with flowing streams, only stratas with very slowly percolating waters passing through, and that the water plain of the alleged river covered one hundred thousand acres or more, being fed by all the entire water shed.

How any court can decide that this valley overlies a river, on such evidence, is beyond belief. To do so it will have to change every established notion of what constitutes a river and reverse all the laws and rulings that have been relied upon to govern riparian rights.

The testimony of the other experts has been along similar lines

tending to confirm and uphold the views put forward by Mr. Mulholland. This kind of evidence and its quantity of cause depends upon the size of the plaintiff's purse, and is therefore only limited by what she will think is a plenty, as she has the money to pay for the goods as ordered and delivered.

There will be many chapters in this story before the trial is ended even in this court for it may even extend on beyond the Christmas vacation. In some parts of the valley the ranchers are already showing signs of discouragement and a willingness to sacrifice their holdings. This appears to one who has studied the matter carefully and watched the progress of the suit closely to be foolish and short-sighted. This suit will clear up the cloud that the city's claims have thrown over their titles and the uncertainty and depression that has existed over the prospects of this valley will give place to a great and sudden increase in values and prosperity which ought to be realized by those who have had to endure the hardships of the city's infamous proceedings.

### NEW FREIGHT RATE.

John Mulder has been appointed freight agent for the Pacific Electric Railway Company at Glendale and the service is scheduled to commence on Nov. 1st. Mr. Mulder informs this paper that the ordinary freight rates are to be 6 cents per hundred and the electric company's rates will be equally as low as those given by the Salt Lake Company.

The people of this community can certainly afford to encourage this innovation of the electric system, and no doubt will.

### CASA VERDUGO.

#### "Swell" Resort for North Glendale On the Way.

The Los Angeles Interurban electric railway has a gang of Mexicans at work in North Glendale manufacturing adobe bricks, which will later be used in constructing extensive additions to the Casa Verdugo.

The Mission style of architecture will be continued, and the old, as well as the new, building, will be most elaborately arranged.

It is intended to make this place one of the most attractive suburban resorts in southern California.

## ARD-"EEVIN"--- BEAUTIFUL HEIGHTS

### VALLEYS' GRAND VIEW-POINT

#### Beautiful Foot-Hill Home of Mr. and Mrs. Dan Campbell.

Through the courtesy of Mr. Dan Campbell the editor of this paper was permitted a sight of the grandeur of the matchless beauties of the San Fernando and Glendale valleys on Tuesday last. This view was obtained from the veranda of "Ard-Eevin," Mr. Campbell's beautiful foothill home.

Standing on the veranda of this beautiful home the eye can take in the valleys entire, sweeping a distance of some forty miles from Elysian Park on the east to the San Fernando mountains at the western extremity of the San Fernando valley.

"Ard-Eevin" (beautiful heights) was built by its present owner some three years ago, and the house sits upon a point of land that extends out from the foothills between two small canyons. Mr. Campbell in arranging for a foundation for his house, cut off the crust or top of this point or neck of land, making a twelve-foot cut and placing the building on a solid decomposed granite foundation. In making this cut the point was rounded and a solid circular driveway was obtained which reaches entirely around the house and lawn.

The house is of two stories, has nine large rooms all plastered and superbly finished, the ceiling being frescoed. The front of the house is circular as well as the front yard, the house being built to suit the location, all the rooms looking out upon the valley to the east, south and west. The entire arrangement is modern and the house is lighted with acetylene gas.

This place is not only attractive on account of the beautiful view to be had of the valley, but much profit is realized by the owner from cultivating the fertile acres which lie east, south and west of the residence. The place contains 25 acres, all tillable soil, 20 acres of which has been set out to oranges, 7 acres to Thompson's improved variety and 13 acres to Valencias. The trees are four years old and just beginning to bear and are free from disease and growing vigorously. This location is an ideal one for growing large and luscious oranges, and all kinds of vegetables, as it is in a frostless belt. Two years ago Mr. Campbell planted 5 acres to tomatoes and he marketed the crop for \$1500, having a continuous crop from August to April. The soil here is of a granite character and very rich and its depth is unknown.

The climate is perfect and the fogs that are common to most places never reach "Ard-Eevin." The elevation is

just right, being 1,000 feet above sea level.

Every year the railroads advertise (and truly, too) the wonderful sights and grand views to be seen on a trip around the "Kite Shaped" track; but out here in the San Fernando valley, only 10 miles from the Los Angeles courthouse, is "Ard-Eevin," which affords a perfect view of one of the grandest valleys in the state.

In order to reach this place from Los Angeles one can take the Glendale electric car at Sixth and Main and ride to the end of the line at North Glendale and then walk or drive a mile west on Kenneth road which will bring them to this picturesque home and most beautiful view point of this wonderful valley.

As the editor has received several inquiries of late from parties of whom seeking information as to property of this character, we asked Mr. Campbell if this property was for sale, and what he valued it at, and the response was that while he was not anxious to sell, still, like all Californians if he could get his price, he might consider a proposition of this kind. Mr. Campbell then informed us that unimproved land in this locality had recently sold for \$600 per acre. This is certainly an ideal place for a country home for a person of wealth, and we have no doubt should Mr. Campbell conclude to sell, that he will easily find a purchaser among the wealthy eastern visitors who will come to southern California this winter.

While Mr. Campbell's place affords the finest view of the two valleys, still there are many beautiful homes in North Glendale, and it is well worth the time and expense necessary to get a sight of these homes and the grand view to be obtained of the valleys from this location. We predict the coming winter will bring many sightseers and home-seekers to this most favored spot in beautiful San Fernando valley.

### Incorporation Proceedings.

The petition for the incorporation of Glendale, as a city of the sixth class is now in the hands of the printer, it will be published three times in the Weekly Mirror, which publication will comply with all requirements, and it will be presented to the Board of Supervisors on Tuesday, Nov. 14th, at which time protests concerning the boundary lines will be considered.

The Pacific Electric Company objects to Casa Verdugo being included in the proposed city, and the incorporators have little objection to leaving that outside the limits, otherwise they will insist that the lines remain as described in the petition. As that will leave the territory to be incorporated less than two miles square.

Misses Nina and Nola Lyman, accompanied by their brother Harry Lyman, of Los Angeles, visited Glendale friends Tuesday, and were in attendance at the dancing party given by Misses Hackman and Stevenson.

SUPERVISOR PATTERSON TO TAKE ACTION.

Supervisor Patterson was in Glendale on Tuesday looking over the situation here regarding the proposed storm water district which would embrace Glendale valley and that portion of the San Fernando valley lying east of Grand View cemetery. Mr. Patterson also investigated the condition of the Salt Lake Company's railway tracks in Glendale and expressed his intention of bringing the matter of leveling same before the official the next day. They will be made to keep their agreement with the people, which was to the effect that said company would at any time put the railway tracks in such condition that wagons or vehicles of any kind could safely and conveniently cross their tracks within a certain prescribed district of Glendale. Requests have been made to the company regarding this matter, but so far no attention has been given the matter by the company. It is quite likely the railroad company will give this important matter their early attention after being reminded of their obligation and lawful responsibility by our supervisor.

Nothing definite was done regarding the proposed storm water district, but the committee in charge of this matter hope to be able to secure favorable action on the part of the supervisors to the end that an organization may be perfected and sufficient funds be appropriated and subscribed so that this section may in future be safeguarded against the ravages of the storm waters of Verdugo canyon.

## Better Service Promised.

Los Angeles, Cal., Oct. 19, 1905.  
Mr. Edgar W. Pack,  
c/o Canahl Lumber Co.,  
Cor. Pasadena Ave. & Ave. 19,  
East Los Angeles, Cal.

Dear Sir: Replying to your letter of October 12th:

I am pleased to inform you that after having this matter up with the general manager, I am advised that, effective at once, he has instructed the superintendent of the Glendale line to have the branch car on Fourth street make connection between all main line cars to and from Los Angeles, and the end of that branch at Glendale avenue, in both directions.

This should obviate the trouble in that direction in which yourself and others in that locality have been complaining.

Yours truly,

J. McMILLAN,  
Traffic Manager.

The above is in reply to a request

made by Mr. Pack to Traffic Manager McMillan of the Pacific Electric that that company take some action looking to improvement of the car service for Glendale. It is to be hoped that this arrangement will be permanent and that Glendale may receive consideration from the electric company which the business from here merits.

## BURBANK.

Born to the wife of Mr. Will Dingman, October 22, a son.

E. A. Marshall left last week on a short business trip to Tulare.

Rally Day was observed at the Methodist church last Sabbath day.

Rev. Thurston and wife returned Tuesday from a short visit in Fresno.

Mr. Townsend, of Pasadena, was in Burbank Monday, looking for a house, as he desires to locate here.

L. A. Jones has leased his alfalfa ranch to A. Carpi. Mr. Jones has concluded to give up ranching.

Mr. D. A. Kughen, who has been seriously ill the past two weeks with appendicitis, is rapidly improving, and will soon be able to be out.

Mr. and Mrs. Al Young started Tuesday morning on a hunting trip. They expect to be gone about a week, and there is no doubt the quail will greatly decrease in number.

Mr. and Mrs. Fred Cole left Wednesday to visit the latter's uncle in Murietta. They went by wagon and will enjoy camping out and hunting. They expect to be gone about a week.

Carl Ginn returned last Wednesday from Portland and other northern places. While Carl enjoyed himself thoroughly and saw many interesting things, he says "There's no place like Burbank" and he is heartily glad to be at home.

## Safe Arrival.

The friends of Mrs. C. H. Taylor will be glad to know that she and her son arrived safely in Iowa, where they took the remains of Rev. Taylor for interment.

They reached Independence, Tuesday, October 17, and the funeral services were held the next day. Many of the family's old friends from a distance, and a great number of ministers, associates of Brother Taylor, were in attendance at the funeral.

The floral offerings were many and beautiful and the grave, his last resting place, was beautifully decorated, being lined with white and covered with the many-colored leaves.

The white was emblematic of the good, pure life led by the deceased, and the autumn leaves the closing of a good man's useful life.

He is gone, but not dead, for his memory will live for ever among his unnumbered friends who are better for having known him.

W. J. Ludlow and family spent Friday and Saturday last at Redondo.

A number of our farmers are busy harvesting the walnut crop. While the crop is not as heavy as it was last year, the nuts are unusually fine and are bringing a good price.

## TOLUCA.

Why was the city press so glib with promises to the people of the San Fernando valley before the election on the Owens River proposition; and now so silent during the water litigation? Let it be published to the world that it was the city of Los Angeles that voted millions of dollars to pay cash for water two hundred

miles away, and at the same time proceeds to rob the people at its very gates of the water that flows beneath their farms, and which means to them their very existence!

Let it be published to the world that it is the city of Los Angeles that when its citizens wish to have even by nine lawns the water is metered cut to them by tin cupfuls at a great profit, so that the city is able to pay its law department large salaries, to keep up this damnable process of robbery! Let it be published to the world that the city press already considered that the residents of the San Fernando Valley have been reincarnated into chuckawallas and the valley is now a desert, and not to be considered.

Let it be published further, that it is the city of Los Angeles that is permitting its law department to prosecute this case against these good people, while ninety-five per cent of its citizens are ashamed of it.

Yes, by all means, the city council should send Major Houghton up to the Owens River country, and while there have him brand that herd of mavericks now running in the city's Owens River Valley alfalfa patch.

See!

Our good editor has hit the nail squarely on the head again, when he says we have a poor way of showing appreciation. It's a shame Burbank has not supported this paper better, for it surely is doing a good work. Real live merchants should be represented in their home paper every week. Toluca, not having an interest in Burbank, cannot be expected to support their stores or industries, but should support this paper with their subscriptions.

The Ladies' Aid of the Methodist church entertained with a very pleasant affair Wednesday afternoon, at the parsonage on Third street. The social was in charge of Meses. Frank Campbell, Joseph Brown, W. S. Blackburn and Edson Grant. These pleasant social gatherings will occur once a month and the offerings obtained will be applied on the building fund.

YOUNG MEN'S LITERARY CLUB.

Interesting Talk On Japan by Rev. Edgar Leavitt.

The Young Men's Literary club of Glendale was pleasantly entertained at the home of Charles Snow, in Third street, Wednesday evening. Following the usual routine of business, Edgar Leavitt, who spent eleven years as a missionary in Japan, gave an interesting talk on the manners and customs of the Japanese people and of the country in general. The talk was given not only from the missionary's standpoint but as that of one of the citizens of Japan.

Two fire hydrants have been recently installed at the Glendale Grammar school, by the school board. One hydrant has been placed at the front of the building and the other in the court of the building. A test was given recently to determine the height to which water could be forced, in case of fire, and the results were such as to prove that in case of fire two large streams of water could be played on the flames, with great effect.

The next meeting of the Young Men's Literary Society will be held at the residence of F. C. Hezmelhalch, on Fourth street, Wednesday evening. A most interesting programme is promised. Two short lectures will be given, one by Horace Overton, and the other by the host, F. C. Hezmelhalch, on the "Lewis and Clarke Expedition." The meetings of this popular club are always attended with much fervor and enthusiasm.

Improvements for Glendale.

Work has been in progress on the improvement of Brand Boulevard for some time by the railroad company and L. C. Brand has now commenced work on that part of the boulevard lying between Fourth street and the foothills. The ground the entire distance is to be plowed, graded and three coats of oil applied, which will make this picturesque drive one of the very best in southern California.

Mr. Brand says he will spend several thousand dollars in paving and curbing besides the amount to be devoted to building the boulevard.

EXCELLENT WORK RECOMMENDS THEM

Grant & Andrews, Local Contractors and Builders, Constantly Increasing Force.

Grant & Andrews, contractors and builders, are experiencing such an increase in business that it has necessitated an addition to their working force. The force now composes six first-class carpenters and this reliable firm is doing some excellent work in the building line in Glendale.

They commenced work Monday on a new six-room cottage for Robert Wilson, at North Glendale, just south of Casa Verdugo. They are also at work on the two-story nine-room residence for Rev. S. L. Ward, on Second street, near A. They have just completed a beautiful and most substantial cottage for Howard Suit, on J., between Fourth and Fifth.

This enterprising and reliable firm of contractors and builders have built 14 modern residences in Glendale within the past few months, besides having done the finishing work for the Elias Avers building.

Each successive job of work is an additional recommendation to the skill and reliability of this firm, and anyone contemplating erecting a building which requires skilled workmen, will do well to consult this firm.

DEATH OF RESPECTED CITIZEN.

After a lingering illness of several months, Mr. Job Taylor passed away at his home at West Glendale Saturday night.

A widow, two daughters and three sons are left to mourn the loss of a loving companion and devoted father.

The funeral services were held at the family residence Monday morning and were conducted by Rev. Avery of the Burbank Methodist church, assisted by Rev. Fletcher Pomeroy of Burbank and Rev. C. R. Norton of the Glendale Methodist church.

Many beautiful floral offerings, silent though beautiful expressions of numerous sympathizing friends, covered the casket. Following the service at the house the remains were conveyed to Grand View cemetery followed by a long cortege of friends and neighbors of the deceased.

The pall-bearers were Messrs. Pogue, Davis, Brown and Dufur, of Burbank.

Epworth League Entertains.

A business meeting of the Epworth League was held Tuesday evening at the home of Miss Mary Blackburn. Fourth Vice-President, Glen Sexton was elected secretary of the League to fill the vacancy of Frank Rodgers, who has resigned and moved to Los Angeles.

Following the business meeting all repaired to the bungalow at the rear of the Blackburn residence and there enjoyed a "Hard Time" social and taffy pull.

The company all appeared in costumes representing hard times and a poverty-stricken people, which being decidedly incongruous with the prosperous times of the people of the valley rendered the occasion all the more amusing.

Mr. and Mrs. John Hobbs were guests at a pleasant dinner party Saturday evening, given by Mr. and Mrs. Hugh Creig, of Oneda, Illinois, at the Hotel Rosslyn. The guests included nine former residents of Oneda, and many were the pleasant reminiscences recalled by this company of the days of long ago in Illinois.

### INTERESTING PROTRACTED MEETINGS.

Dr. Albert Eaton Fitch, of the evangelists associated with Dr. Chapman, will begin a series of protracted meetings at the Tropico Methodist church, Sunday evening, November 5.

Dr. Fitch comes to Tropico as a most eloquent and forcible speaker, as well as a fine vocalist. He carries conviction in his utterances from the pulpit and then touches the hearts of all with his beautiful singing.

Rev. John Pittenger and his congregation are anticipating this series of meetings, as much interest is being manifested by all.

Tropico M. E. Church will hold Quarterly Conference at the church on Thursday evening, Nov. 2d. Dr. Thompson will be present and conduct services.

### DEATH OF DOROTHY HAMMOND.

The beautiful, holy Sabbath day had drawn to a close, and the darkness had fallen from the wings of night in a quiet benediction, when the death angel drew the curtain aside, and having lingered on the threshold of the happy Hammond household for the past week, entered unbidden and clasping little Dorothy, bore her away to the mansions on high.

Dorothy was a blue-eyed, laughing lassie, the joy and light of her adoring parents, and loved and admired for her sweet childish manner by all of the neighbors. The funeral services were held at the home, on Oak Drive, Tuesday morning, interment at Grand View cemetery.

There, under the shade of the pepper trees, on a couch of many beautiful flowers and surrounded by sorrowing relatives and friends, little Dorothy Dean Hammond, the three-year-old daughter of Mr. and Mrs. R. W. Hammond, was laid tenderly and lovingly away to await the resurrection morn.

Pastor J. W. Adams, of the Seventh Day Adventists church of Los Angeles, gave a scripture reading which he followed with beautiful and touching remarks that brought sweet comfort to the sad hearts of the parents. Prof. Giddings, of San Fernando, lead in prayer.

Sweet, sympathetic music was furnished by a quartette composed of Misses Hinton and Nelson, C. F. Marvin, of the Glendale Sanitarium, and Earl Bostwick, of Los Angeles. The pall-bearers were four of the nurses of the Glendale Sanitarium, and in the dainty nurse's costumes bearing the white casket covered with white blossoms, made a most touching and pathetic appeal to all. The young ladies were, Misses Nelson, Hinton, Balzahauser and Neilson.

### A DELIGHTFUL EVENING WITH COMPANY "A," AT G. A. R. HALL.

Miss Hazel McKown, captain of Company "A" of the Good Templars Lodge, assisted by members of her company, gave a very interesting program at G. A. R. Hall, Friday evening.

Mr. Smith, of Los Angeles delivered several humorous literary selections, as well as rendering a vocal solo and an instrumental selection. Miss Smalley gave a dramatic reading. Misses Hazel and Imogene McKown rendered a piano duet. A sketch, "Meeting of Two Chums," as given by Guy Maxwell and Glenn Wilson, was well received. A pleasing diversion on the program was the comedy, "The Long-Lost Nephew Returned." Those par-

## TROPICO MEAT MARKET

All kinds of Fresh and Salt Meats, Sausages, etc., always on hand. Everything first-class.

Departing were Misses Smalley and Imogene McKown, Messrs. Albert Cornwell, Bert Trimble and Guy Maxwell. The party were well sustained by these promising amateurs.

Guy Maxwell gave a recitation, after which the program closed with a pretty tableau, "The Wedding," in which Mrs. Clifford Mason represented the bride; Albert Martin, the bridegroom; Misses Hazel McKown and Imogene McKown, bridesmaids; Clarence Peck and Glenn Wilson, "best men." Rev. C. R. Norton, officiating clergyman.

### HIS FLOCK WELCOMES HIS RETURN.

Rev. and Mrs. John Pittenger were tendered a reception at the Methodist church on a fine day evening, by the congregation of the church. Mrs. G. W. Burke was chairman of the committee having the pleasant affair in charge. Not only the members of the congregation, but a large number of friends attended the reception to welcome the return of the noble Christian leader and his sweet-faced helpers to Tropic, where they are so universally loved and respected.

Robert Taylor, second officer in the District Council of the Independent Order of Good Templars, and member of the District Committee, met other members of the committee in Los Angeles Monday evening to make preparations relative to the convention of the Grand Lodge of I. O. G. T. of the state, which convenes in Los Angeles next year. The committee intends making this convention the most notable of its kind ever held in the state and are converging every effort to that aim.

### Notice of Dissolution of Partnership

Notice is hereby given to all whom it may concern, that the partnership business formerly existing under the firm name of Goring & Seaman has been dissolved, and the business in future will be conducted by J. H. Seaman.

# IMPORTANT MEETING OF TUESDAY AFTERNOON CLUB.

The Tuesday Afternoon Club entertained as its guests Tuesday afternoon, Mrs. O. C. Bryant, of Los Angeles, district president of the State Federation of Women's Clubs, and Mrs. M. L. Robertson, a prominent parliamentarian of Los Angeles. Miss Helen McIntyre read a letter announcing to the club that the Tuesday Afternoon Club of Glendale had been voted in as a member of the State Federation of Clubs, at the regular meeting of the executive board held last Tuesday in Los Angeles. Mrs. Bryant, district president, then extended a most cordial invitation and congratulations to the club, in a brief but bright and interesting talk.

Mrs. M. L. Robertson gave a parliamentary drill, which was thoroughly enjoyed by all present. The officers and members of the club, who were present, with one accord feel that her drill was very beneficial and much good will come of the talk and drill given by this charming parliamentarian. At the close of Mrs. Robertson's drill she was greeted with a rising vote of thanks by the club. Mrs. George P. Moxie contributed to the program by rendering "Romanye," (Josef Loe.)

The kindness of W. C. Fraley, in tendering the use of his new hall to the club, when the "At Home" was given last Tuesday evening, was duly recognized by a vote of thanks. The committee having the "At Home" in charge was duly recognized.

Miss Ednah Ballantyne, Miss Mable Patterson and Miss Alex Mitchell were received as club members.

It was decided to issue special tickets for the season's lecture course, to pupils of the several schools, as the events occurring in this course will be of especial interest and benefit to all students.

## Misleading Statement.

In the Times of Wednesday the Glendale correspondent states that a petition to the supervisors in regard to forming a storm water district had been by them indefinitely pigeon-holed which statement is untrue. Whittier, Azusa and Altadena have had committees before the district attorney and supervisors for several days, endeavoring to construe the present law concerning storm water so that such districts might be formed without the supervisors becoming personally liable for any damage caused by the diversion of waters from their present course. The district attorney decided that the present law was defective and that the board could not act without danger of personal liabilities. When the legislature meets again pressure will be brought to bear in this connection, which no doubt will result in creating a law under which such districts can be legally formed.

The supervisors are more deeply interested in this than anyone else, and do not pigeon-hole any petitions until they have been considered. Supervisor Patterson was here this week, and said that probably a small amount might be used from the general county fund in making a start on controlling the water from Verdugo Canyon.

# BRILLIANT SOCIAL FUNCTION.

Miss Eulalie Hackman and her houseguest, Miss Jessica Stevenson, were hostesses at a most charming and recherche social function, given in I. O. O. F. Hall Tuesday evening.

These most gracious of young hostesses were ably assisted in receiving and entertaining the large assembly of guests by Mrs. M. L. Hackman, Mr. and Mrs. W. C. Fraley.

The hall was tastefully decorated in a generous arrangement of bright-hued blossoms.

Here panic, flinch and whist occupied the attention of those desiring to while away the moments in games. Music also furnished a most pleasing diversion. In the new portion of the hall, a ball-room had been prepared where dancing was indulged in by the devotees of Terpsichore. Music was furnished for dancing by Guy and Jay Rice, the strains of which floated throughout the hall, and mingled with the gay conversation of the guests who found much pleasure in this social intercourse.

Miss Hackman was wearing a gown of mousseline de soie, with lace garnitures.

Miss Stevenson was handsomely gowned in pink silk with trimmings of point-de-sprit.

Mrs. Hackman was most charming in a gown of lavender organdie with trimmings of bands of black velvet.

Mrs. W. C. Fraley was stunning in a gown of crimson organdie.

There were many handsome toilets worn, and all in all this was the most charming social event of the week. A dainty buffet luncheon was served.

Among the guests bidden to accept the hospitality of Misses Hackman and Stevenson were: Messrs and Misses C. B. Cuenhart, R. E. Chase, E. W. Paek, Pitcher, E. Q. Patterson, Sturges, Horace Overton, F. C. Hezmel-haleh, C. W. Weidenfeller, Evans, J. C. Sherer, Edgar Leavitt, C. Mason, George Woodberry, Anderson, F. S. # M. E. Church Affairs.

Rev. C. R. Norton, pastor of the Methodist church, reports that subscribers to the building fund of the new church are fast liquidating their pledges and the building of this new edifice, which will be one of Glendale's many substantial improvements, will be begun in the near future.

The board of trustees comprises C. E. Russell, Prof. G. U. Moyse, Frank Campbell, H. E. Gulvin, A. B. Scofield, E. F. Kober and A. W. Faucet, all prominent and reliable business men, and active church men.

Subject for the preaching services Sabbath morning will be "Result of Neglect." At the evening services one of the ladies now in attendance at the W. C. T. U. convention, being held in Los Angeles, will deliver an address. A cordial invitation is extended to all.

The course of entertainments to be given this season by the Methodist church promises to be of unusual interest as well as highly instructive. November 10, "The English Hand Bell Ringers" will give the first of the series of entertainments and all are anticipating a programme of much interest.
